MANUFACTURING

BLUESCOPE SHEET METAL SUPPLIES

Choosing BlueScope Sheet Metal Supplies gives you confidence in the quality of your material matched with on-time deliveries and exceptional customer service.

BlueScope Sheet Metal Supplies is a market leading sheet metal business focused on providing quality BlueScope products and solutions to the Australian market place. Our commitment is to work with our customers to expose mutually beneficial outcomes that will complement our product and service offer.

Our range of steel sheet and coil products comprise of:

- Mild Steel Plate
- Hot Rolled
- Cold Rolled
- Metallic Coated
- Pre-Painted
- Automotive Steel

Our range of aluminium products comprise of:

- Aluminium Sheet and Coil
- Painted Aluminium
- Aluminium Plate
- Aluminium Treadplate
- Extruded Aluminium

As part of the BlueScope group of companies, we have the ability to investigate and produce specially designed steel grades outside our standard range and offer a number of third party certification options as well as non-standard test requirements.

BlueScope Sheet Metal Supplies are committed to providing high quality processing capabilities, ranging from shearing, slitting and re-coiling to complex and precise router cutting.

An integral part of our quality processes at BlueScope Sheet Metal Supplies is to make sure test certificates are available and comply with the necessary standards. All our products comply with Australian standards and we hold ISO 9001 Quality Management System Accreditation.

We are able to respond quickly to your needs and can accommodate adjustments to business requirements, including scheduling and delivery changes, without missing critical deadlines.

KEY BRANDS

Colorbond®

COLORBOND® steel is one of the most advanced pre-painted steel products in the world. Beautiful, durable and versatile, **COLORBOND®** steel is used to manufacture a wide range of building products found in an even wider range of building applications.

BlueScope Sheet Metal Supplies can supply the full range of **COLORBOND®** steel colours in both sheet and coil form. Whether you are a roofing, walling, rainwater or fencing manufacturer, the team at BlueScope Sheet Metal Supplies has you covered.

Zincalume®

ZINCALUME® steel has the unique ability to compliment both traditional or ultra modern architecture. Use it with confidence. It's flexible and cost effective, so the design choice is yours.

Whatever your steel building needs, the team at BlueScope Sheet Metal Supplies has you covered. Setting a new industry benchmark, next generation **ZINCALUME®** steel meets the growing demands of a changing built environment for durability, resilience and sustainability; giving you the confidence to create for years to come.

Galvabond®

GALVABOND® steel products are produced in a continuous hot dip galvanised process and have been specifically designed to satisfy your manufacturing requirements with features including guaranteed minimum elongation properties and spangle surface.

GALVABOND® steel products also have strict adherence to Australian Standards so you can be confident GALVABOND® steel will meet your performance expectations.

Galvaspan®

GALVASPAN® steel is a special grade of high strength, hot-dipped galvanised steel strip. It has been specifically developed for purlins and girts, and is cold roll-formed into a wide range of sizes.

Choosing **GALVASPAN®** steel gives you the confidence of a minimum zinc coating of 350 grams per square metre providing excellent corrosion resistance, durability and long life. All backed by BlueScope Steel's warranty (terms and conditions apply).

Truecore®

TRUECORE® steel is a zinc/aluminium alloy coated steel with a distinctive blue resin surface finish, made by BlueScope specifically for the house framing market.

A house frame made from **TRUECORE®** steel is strong and durable, straight and true, lightweight and termite proof.

TRUECORE® steel comes with a 50 year warranty backed by BlueScope (terms and conditions apply).

STEEL EFFICIENCY REVIEW®

Based on the principles of "LEAN" and the best practices of the "TOYOTA WAY", the **Steel Efficiency Review®** was developed to help our customers with their operational challenges and key growth opportunities.

The **Steel Efficiency Review®** consultation is quick and easy to carry out. Within 2 weeks we'll report and confirm our findings, recommendations and cost-saving solutions. And better yet the **Steel Efficiency Review®** costs nothing and there are no strings attached.

PROCESSING CAPABILITIES

STEEL SHEET & COIL

- Slitting
- Shearing
- Guillotining
- Re-Coiling

ALUMINIUM

- Slitting
- Shearing
- Guillotining
- Router cutting
- Laser cutting
- Drilling
- Marking
- Sawing

APPLICATIONS

- Residential Building
- Non-Residential Building
- Repetitive Manufacturing and Original Equipment Manufacturing
- Commercial Building
- Mining, Oil and Gas
- Transport
- Caravan and Recreational Vehicles
- Automotive

OUR MANUFACTURING VALUE PROPOSITION

When you choose **BlueScope Sheet Metal Supplies** you will receive quality steel and aluminium products matched with on-time deliveries and exceptional customer service. Our **Manufacturing Value Proposition** is based on the following key product and service offerings:

REDUCE RISK

Quality Accredited Steel Products

We reduce risk through our ISO 9001 quality management system, providing assurance for your business. We understand the importance of material traceability and can provide test certificates to match all our steel and aluminium products, providing peace of mind and consistent high quality. This removes the hassle and ensures your material complies to the necessary standards to ensure your products are fit for purpose.

SAVE ON WAREHOUSE SPACE

Semi-Finished Products and Parts

We work with our Manufacturing customers to provide confidence in our processed products and parts. This in turn allows our customers to free up warehouse space and utilise their workforce in adding value down the line. Ranging from shearing, slitting and re-coiling to complex and precise router cutting, your material will be delivered marked and safely packed as specified on time to suit your job and project schedule.

REDUCE WORKING CAPITAL

Supply Chain Management

Managing multiple jobs and projects can be complex, as well as time and resource consuming, requiring specific skill-sets and experience. BlueScope Sheet Metal Supplies provides expertise in stock management, supply chain efficiency and inventory optimisation programs. This allows your business to reduce working capital with the peace of mind of stock availability.

INCREASE REVENUE

Manufacturing Support

We partner with your business to ensure a long-lasting relationship built on trust. Removing the risk of costly delays, BlueScope Sheet Metal Supplies understands your manufacturing requirements and provides local support and supply. Backed by the technical and engineering teams from our Port Kembla, NSW steelworks, we work with you to save time and deliver the steel you need.

PRODUCT RANGE

SHEET & COIL

Cold Rolled

- Formable
- Structural
- Enamelling
- Architectural Weathering Steel CW300-G

Hot Rolled

- Formable
- Extra Formable
- Structural
- Architectural Weathering Steel HW350

Metallic Coated

- GALVABOND® steel
- GALVSPAN® steel
- High tensile galvanised
- ZINCALUME® steel
- ZINCANNEAL® steel

Pre-Painted

- COLORBOND® steel
- COLORBOND® Metallic steel
- COLORBOND® Ultra steel
- COLORBOND® steel Matt

PLATE

- XLERPLATE® steel
- XLERPLATE® Laser Cut 250 steel
- TRU-SPEC® steel
- Boiler & Pressure Vessel
- Floorplate
- Quenched & Tempered

ALUMINIUM

Extruded Products

- Building & other sections
- Marine sections
- Transport sections

Rolled Products

- Sheet & Coil
- Plate & Tread plate

MERCHANT BAR

- Angles
- Rounds
- Flats
- Square

TUBE & PIPE

Circular Hollow Sections

Rectangular Hollow Sections

Square Hollow Sections
